Oh yes, Arvin. It is true that we do not have regulatory oversight because of the less than 4" pipe size, but we are still in the mix because of our role for being responsible for public health and safety with respect to oil and gas activities. I am just now coming up to speed on this issue.

Not been to Namibia, Tanzania, Kenya, Democratic Republic of Congo (then Zaire), but never Namibia. I know you will have a great adventure. Look forward to hearing the tales upon your return.

Travel well.

Steve

Thanks. Sorry I was so long winded and got cut off. Re Arvin, CA, I understand Kern County Health is leading the effort locally.

I will tell you all about Namibia (unless you've already been there), when I return.

Jane Diamond

Jane,

Many thanks for your message. We are working at this end to find some times that work for us to meet with you every other week as we agreed. I will get back to Mike with some suggestions. The hope at this end is that we can find a regular hour that becomes established every other week for us to connect as we work on the UIC review of other issues.

We are making progress here and I will continue keep you (you, Mike, David) posted at new orders are issued or any press releases are being developed so we can get your comments.

I hope you have a great vacation. May I come with you????????

Thanks.

Steve
